## ABOUT ME

---

As a dedicated and enthusiastic individual pursuing a role as a MERN or Frontend React developer, I bring a strong passion for web development and a solid foundation in JavaScript, React, and related technologies. I have gained hands-on experience through various projects, honing my skills in creating responsive and user-friendly web applications.

## TECHNICAL SKILLS

---

- **Developer Tools / Technologies:** VS Code, GitHub, Netlify
- **Tech skill:** HTML, CSS , JavaScript, Bootstrap , React.js , Node.js , MERN ,Figma, Basic DSA

## PROJECTS

---

- **Movie Web:** (ReactJs, Redux ,Tailwind) – **Deploy Link:** (<https://unique-cannoli-1d3ecb.netlify.app/>)
  - Implemented frontend with **React.js** framework to construct scalable and reusable components. **React Router** was utilized for efficient routing within the application.
  - Proficiently Applied **Redux** , to manage state Globally, Apply Modern **UI/UX** and responsive pages .
- **YouTube Lite:** (ReactJs ,TailwindCSS) **Deploy Link:** (<https://strong-cendol-2a1c89.netlify.app/>)
  - The frontend web application. Utilized **HTML**, **CSS**, **React.js**, and **TailwindCSS** to construct web pages look same as You Tube
  - Modern React features using **Hooks** and **ES6** practices, including let, const, and arrow functions.
- **Blogging App:** (MERN) – **repo Link:** (<https://github.com/PriyaGhuguskar/MERN>)
  - Participated in a project where collaborated on both the frontend and backend development of a web application. Utilized **HTML**, **CSS**, **React.js**, and **React-Bootstrap** to construct web pages
  - On the backend, used **Node.js** and **Express.js** to establish the server, and **MongoDB** for data Handling
  - Additionally, designed a **RESTful API** to effectively deliver data to the frontend.
- **Crypto Tracker:** (ReactJs ,React-Bootstrap) – **Deploy Link:** (<https://gilded-tulumba-4c6e4c.netlify.app/>)
  - Implemented frontend with **React.js** framework to construct scalable and reusable components.
  - Created **Crousel** efficiently through CSS **flexbox** and **grid** techniques.
